

## The Morrell Dental Discount Plan

- The Morrell Dental Discount Plan provides reduced cost dental care for individuals without dental insurance.
- There are no annual maximums, deductibles, waiting periods or frequency limitations of any kind.
- It is simple, affordable and easy to understand.
- Most importantly, it allows you to obtain the dental services you need for a lifetime of dental health.

## How does the plan work?

- As a member you will receive a **20%** discount on all dental services we provide including cosmetic services.
- *Invisalign* orthodontic procedures are eligible for a **5%** discount.
- Payment in full for services is accepted on the day of service via cash, check or credit card.

\* Please note that discounts *do not apply* to procedures referred to specialists. These include, but are not limited to, certain periodontal (gum) procedures, oral surgery (complex extractions, implant placement) endodontic (root canal) procedures and referred orthodontic procedures.

## What does the plan cost?

- The MDDP plan costs \$59 per year for individuals;
- \$99 per year for families (couples, plus children living in the household up to the age of 25);
- \$79 per year for senior couples age 65 and over.

## How do I enroll?

- The Morrell Dental Discount Plan (MDDP) is an annual plan that generally runs from January 1st to December 31st each calendar year, however, you may enroll anytime during the year.
- Your calendar year will begin the month in which you enroll in the program.
- Your plan will need to be renewed each year, and we will inform you when renewal is necessary.
- There is no long term obligation to continue participating.
- For more information, call us at 208-342-3440, or email us at [morrelldental@yahoo.com](mailto:morrelldental@yahoo.com).

## How does the program save money?

- By reducing your costs, we hope to improve your ability to afford regular exams, cleanings and routine care.
- Because simple dental problems can turn into complicated, costly ones - regular dental visits are the best way to maintain oral health *and save money* in the long term.
